

# Tom Beaumont | Product Designer (Systems & UX)

Product Designer with 4+ years' experience delivering complex products across consultancy and in-house roles. Proven ability to work within regulated, high-stakes environments and translate ambiguous requirements into structured, user-centred solutions. Background spans medical device UX, physical product systems, and self-initiated digital product design.

## Experience

### Bright Tangerine | Product Designer

DEC 2024 - PRESENT

- Led UX thinking across product ranges, mapping professional workflows to improve usability and reduce operational friction
- Translated complex technical requirements into structured, intuitive systems for end users
- Designed and maintained consistent visual and information standards across 100+ products
- Produced high-fidelity digital assets, documentation, and launch materials with strong emphasis on clarity and hierarchy
- Worked closely with engineering and manufacturing teams to balance usability, feasibility, and cost constraints
- Developed an internal automation tool (Python) that reduced packaging processing time by 93%, saving 50+ hours annually

### Innovate Design | Junior Product Designer

NOV 2023 - DEC 2024

- Translated ambiguous briefs into structured design solutions through rapid discovery and iteration
- Facilitated design sprints and workshops to align stakeholder goals with user needs and technical realities
- Balanced commercial constraints with usability to deliver viable, market-ready outcomes
- Worked within Agile environments, collaborating with multidisciplinary teams

### 3form Design | Product Designer (Intern)

JULY 2021 - AUGUST 2022

- Led UI/UX design for a surgical knee replacement tool system, working directly with clinicians to improve usability and efficiency
- Delivered a product that secured £3.8M in funding following successful international launches, deployed across hundreds of procedures
- Operated within strict regulatory and safety constraints across the full design lifecycle

## Education & Awards

### BSc Product Design (1st Class Honours)

Nottingham Trent University, 2023

### Cambridge Consultants Award

Awarded by Cambridge Consultants for the strongest demonstration of user empathy and design quality across the university cohort.

## Core Skills

### Design

UI Design, Design Systems, Responsive Design, Wireframing, High-Fidelity Prototyping, Information Architecture, Typography & Layout

### Research

Usability Testing, User Journey Mapping, Personas, Workflow Mapping, Stakeholder Workshops

### Software

Figma, Adobe Creative Cloud (Photoshop, Illustrator, InDesign), Miro, WordPress, Python
